

SAASIER

— INC —

A parent-brand system for ownership, structure,
and the power of a focused software portfolio.

BRAND STRATEGY • VISUAL IDENTITY • SOCIAL SYSTEM • PORTFOLIO ARCHITECTURE

Prepared for Macon Wright | July 2026

Brand foundation

CORE IDEA

SaaSier Inc is not another software product. It is the company that creates, owns, and scales specialized technology businesses. The identity should feel enduring, structured, and investor-ready while remaining modern enough to represent an AI-native portfolio.

RECOMMENDED POSITIONING

Building the future of focused software.

A women-owned technology holding company that builds and supports vertical AI, developer tools, consulting delivery, code intelligence, and reusable operating software.

FOCUSED

Each company solves a specific operating problem.

CONNECTED

Shared systems create leverage across the portfolio.

DURABLE

Built for long-term ownership, not novelty.

AMBITIOUS

Practical products with category-scale potential.

02 LOGO SYSTEM

The forward S

CONCEPT

Two continuous ribbons form a forward-moving “S.” The upper and lower paths represent independent companies; the shared geometry represents the operating system, capital, distribution, and discipline that connect them.

WHAT IT COMMUNICATES

- Parent-company authority
- Forward movement and scale
- Independent companies, intelligently connected
- Premium, modern, and timeless

Logo marks and lockups

PRIMARY HORIZONTAL LOCKUP

REVERSED LOCKUP

MONOGRAM

FLAT GOLD

ONE-COLOR NAVY

REVERSED WHITE

Use the metallic gold mark only in digital contexts where the gradient renders cleanly. Use flat Founder Gold for print, embroidery, vinyl, small icons, and vendor production.

Clear space, minimum size, and misuse

CLEAR SPACE

Maintain clear space equal to the width of one ribbon stroke around the logo.

MINIMUM SIZES

Horizontal logo

Digital: 160 px wide | Print: 1.4 in wide

Monogram

Digital: 28 px | Print: 0.25 in

NEVER

- ✗ Stretch or skew the mark
- ✗ Rotate the mark
- ✗ Change individual ribbon colors
- ✗ Add outlines or unapproved shadows
- ✗ Place on visually noisy backgrounds
- ✗ Use the metallic gradient for single-ink production

Color system

MIDNIGHT NAVY

#071A36

Primary authority and trust

FOUNDER GOLD

#D4AF4A

Ownership, value, momentum

OPERATING SLATE

#334155

Supporting text and structure

CLOUD

#F3F4F6

Calm backgrounds and separation

WHITE

#FFFFFF

Clarity and breathing room

RECOMMENDED RATIO

65% WHITE / CLOUD

25% NAVY

10% GOLD

PRODUCTION NOTE

Gold should function as an accent, not a default background. The metallic gradient is a digital expression; the production color remains Founder Gold #D4AF4A. Use sRGB for digital exports and request a vendor proof before matching metallic or foil finishes in print.

Brand fonts

PRIMARY FAMILY

Inter Display

Headlines, section titles, presentation covers, social graphics, and short emphasis. Use SemiBold or Bold. Keep tracking tight at large sizes and avoid all-caps paragraphs.

BODY FAMILY

Inter

Body copy, captions, tables, proposals, reports, websites, and UI-adjacent material. Use Regular for body copy and Medium or SemiBold for labels.

FALLBACKS

When Inter cannot be installed, use Aptos for Microsoft 365 documents and Arial for external compatibility. Do not substitute decorative, futuristic, or “AI-style” display fonts.

H1	Inter Display SemiBold	32-44 pt
H2	Inter Display SemiBold	22-28 pt
H3	Inter SemiBold	14-18 pt
Body	Inter Regular	10-12 pt
Label	Inter SemiBold, uppercase	8-10 pt
Caption	Inter Regular	7-9 pt

Office document standards

DEFAULT INTERNAL SYSTEM

TITLE	Inter Display SemiBold, 28-34 pt	Midnight Navy
SECTION HEADING	Inter Display SemiBold, 18-22 pt	Midnight Navy
BODY	Inter Regular, 10.5-11 pt	Operating Slate
TABLES	Inter Regular / SemiBold, 9-10 pt	Navy header, Cloud rows
ACCENT	Founder Gold	Rules, key metrics, page markers

DOCUMENT BEHAVIOR

Use generous margins, a clear hierarchy, short headings, and no more than one gold emphasis device per page. Internal documents should feel calm and decisive rather than promotional.

INTERNAL DOCUMENT TITLE

Prepared by SaaSier Inc | Month 2026

- Use Inter Display SemiBold for headings.
- Use Inter Regular for body text.
- Use Founder Gold only for accents and dividers.
- Keep internal documents calm, structured, and highly readable.

Graphic language

RIBBON GEOMETRY

Use cropped segments of the S as quiet architectural devices.

GOLD RULES

Use thin horizontal lines to establish hierarchy and momentum.

STRUCTURED GRIDS

Use disciplined alignment, generous white space, and clear modules.

DARK FIELDS

Use Midnight Navy for high-authority moments: covers, banners, and executive communications.

Photography and image direction

PREFERRED

- Real founders and teams in working environments
- Close-up operational detail: systems, code, product, process
- Architectural compositions with clean negative space
- Confident, natural lighting with restrained color
- Evidence of work, not staged “innovation” theater

AVOID

- Generic handshake photography
- Blue holograms, glowing brains, and robot clichés
- Over-saturated gradients
- Busy stock imagery behind text
- Lifestyle imagery disconnected from the portfolio

Direct, intelligent, grounded, owner-minded

VOICE PRINCIPLES

DIRECT

Lead with what was built, who it serves, and why it matters.

INTELLIGENT

Explain the system clearly without performing complexity.

GROUNDLED

Use evidence, operating detail, and specific outcomes.

OWNER-MINDED

Speak in terms of durability, focus, leverage, and long-term value.

USE

“We build focused software companies around specific operating problems, then give each one the shared systems to grow with discipline.”

AVOID

Vague claims such as “revolutionary,” “disruptive,” “cutting-edge,” or “transforming everything” unless the statement is supported by concrete evidence.

Recommended copy system

CORPORATE DESCRIPTOR	A women-owned technology holding company.
PRIMARY TAGLINE	Building the future of focused software.
INVESTOR LINE	Independent companies. Shared operating leverage.
PORTFOLIO ENDORSEMENT	A SaaSier Inc company.
SOCIAL BIO	We build and support focused software companies across vertical AI, developer tools, consulting, code intelligence, and AI operations.

FOUNDER NARRATIVE

We build companies around specific operating problems, then give each one the focus to serve its market and the shared systems to grow with discipline.

Endorsed, not look-alike

RECOMMENDATION

Each operating company should retain a distinctive identity for its own market. SaaSier appears as a quiet endorsement in investor, press, recruiting, and corporate contexts. Do not force every portfolio logo into the SaaSier visual system.

A corporate presence, not a product feed

CONTENT PILLARS

PORTFOLIO PROGRESS

Launches, milestones, customer proof, and company updates.

OPERATING INSIGHT

How focused software companies are built and scaled.

FOUNDER PERSPECTIVE

Ownership, practical AI, and durable company-building.

TALENT & CULTURE

People, opportunities, and the way the portfolio works together.

RECOMMENDED CADENCE

LinkedIn: 2-3 posts per week. Facebook and Instagram: repurpose major portfolio stories and founder content. X: concise operating observations and portfolio links. YouTube: executive interviews, product demonstrations, and portfolio explainers.

14 SOCIAL SPECIFICATIONS

Platform-ready dimensions

REVIEWED JULY 2026

PLATFORM	ASSET	EXPORT	SAFE AREA / CROP	FILE PROVIDED
LinkedIn	Company cover	4200 x 700	Center 80%; verify live crop	PNG + JPG
LinkedIn	Compatibility cover	1128 x 191	Center-aligned content	PNG + JPG
LinkedIn	Personal background	1584 x 396	Keep left 300 px quiet	PNG + JPG
Facebook	Page cover	820 x 360	640 x 312 centered	PNG + JPG
X	Header	1500 x 500	Center content; avoid lower-left	PNG + JPG
YouTube	Channel banner	2560 x 1440	1235 x 338 centered	PNG + JPG
All platforms	Profile / avatar	Square master	Logo inside center 62%	Platform PNGs
Instagram	Profile image	320 x 320	Circular crop	PNG

IMPORTANT

Social platforms change their crop behavior. The exports place all essential content inside conservative safe zones, but every upload should still be previewed on desktop and mobile before publishing.

One recognizable avatar everywhere

AVATAR RULES

- Use the gold monogram on Midnight Navy.
- Keep the monogram centered inside the middle 62% of the square.
- Do not use the full wordmark in profile images.
- Do not place the avatar on a transparent background.
- Preview at 32 px to confirm recognition.
- Use the same avatar across all company-owned channels.

PERSONAL PROFILES

For founder and executive personal accounts, use a professional headshot as the avatar and use the SaaSier banner as the corporate signal. The brand monogram is intended for company-owned profiles.

16 BANNER SYSTEM

A consistent idea, adapted by platform

LINKEDIN COMPANY

X HEADER

FACEBOOK PAGE

17 SOCIAL TEMPLATES

Post system

TEMPLATE PRINCIPLES

One message per asset. Use large type, restrained copy, strong contrast, and generous negative space. Put the logo in a consistent corner and treat gold as a signal—not decoration.

SQUARE

PORTRAIT

STORY / REEL

LINKEDIN LANDSCAPE

Accessibility and export standards

CONTRAST

Use white on Midnight Navy and Midnight Navy on White or Cloud. Avoid gold body text on white.

MOBILE LEGIBILITY

Preview social graphics at phone size. Avoid body text smaller than 28 px on a 1080 px-wide post.

COLOR SPACE

Export digital assets in sRGB. Convert to CMYK only with the print vendor's profile.

ALT TEXT

Describe the information or purpose of the graphic. Do not repeat every decorative element.

FORMATS

Use PNG for logos and text-heavy graphics, JPG for photography, SVG/PDF for vector production.

QUALITY CONTROL

Check crop, spelling, contrast, file size, and platform preview before publishing.

Recommended rollout

1

LOCK

Adopt the logo, fonts, palette, and messaging as the corporate standard.

2

UPDATE

Replace website, email signatures, profile images, and social banners.

3

STANDARDIZE

Apply the internal document system to decks, proposals, reports, and board materials.

4

GOVERN

Use SaaSier for ownership and portfolio strategy; use operating brands for product selling.
